

Back to Basics

I don't know about you, but the holidays are approaching way too quickly for me! I think this holiday season many of us will be getting back to the basics. With gas and food prices so high, our money for holiday gifts is going to be spread thin. I think that the adults on our shopping lists will appreciate the time and energy placed into making something personal and heartfelt versus store bought and expensive.

Instead of purchasing holiday cards, gift tags, place cards or party invitations make your own this year! When you're looking for the perfect gift for your Aunt or Grandmother that has everything, make her a set of cards for all occasions or a calendar or birthday reminder book. The guys on your list might be a little tougher to make things for but if they hunt or fish, they'd probably like a mini album of all their catches or kills. If they are sports nuts, do something highlighting their favorite team.

With all that in mind, this quarter we are offering lots of classes with projects that can be made for gifts and workshops so that you can have 6 hours of uninterrupted craft time. Whether you decide to make Christmas cards or tags or if you're making calendars, address books, mini albums, etc. you will have lots of time and space at The Scrapbook Nook to get the job done!
